# Introduction

Most of us are concerned about nuclear war — at least to the extent that no one wants to be a victim of atomic warfare. Some, like Dr. Helen Caldicott, National President of Physicians for Social Responsibility in the U.S., are concerned not only with their own survival but with that of the entire planet. Such people are convinced that in a nuclear war there can be no winners. They insist that if a nuclear holocaust is to be averted, we must reverse the arms race and put an end to the quest for military superiority. They firmly believe that the only way to achieve this goal is through concerted action by the general public.

The half-hour NFB documentary, **If You Love This Planet**, clearly presents some of the chilling facts that have led knowledgeable scientists and statesmen to make doomsday predictions. The film will provoke a variety of reactions from viewers. Some will be left speechless as they grasp the full significance of Dr. Caldicott's statements. All will be shocked by the images of post-war Hiroshima, and by the realization that our present capacity for nuclear destruction is so much greater than it was then. Few will remain apathetic.

This guide is designed to channel reactions to the film into positive action. It is intended for a wide range of audiences, from the general public, to high school and university students, to church and specialized peace interest groups. The guide provides after-screening topics for discussion, suggestions for action, lists of A-V and printed resource materials and a list of organizations committed to peace, development, and nuclear disarmament.

The subject areas explored in the guide cover a variety of interrelated issues: nuclear testing and the effects of nuclear fallout; nuclear energy technology and its place in the arms race; nationalism versus collective security; third-world militarism versus development; the loss of highly trained scientists to the military-industrial complex; economic conversion (the re-orientation of the economy to non-military priorities).

Only a well-informed population is capable of effecting political action on so complex an issue as the nuclear arms race. The film, **If You Love This Planet**, provides a starting point. This resource guide is intended to broaden the scope of the investigation and to encourage concerned citizens to work for peace.

# If You Love This Planet

**"When we released energy from the atom, everything changed except our way of thinking. Because of that we drift towards unparalleled disaster."**

**Albert Einstein**

**If You Love This Planet** warns us that time is running out — that unless we shake off our indifference and work to prevent nuclear war, we stand a slim chance of surviving the 20th century.

This powerful documentary records a lecture given to American students in 1981 by outspoken nuclear critic, Dr. Helen Caldicott, National President of Physicians for Social Responsibility.

Dr. Caldicott traces the development of atomic weapons, describes the widespread damage and suffering caused by the World War II bombing of Japan, and compares the devastating bombs of the 1940s to the apocalyptic weapons of today. Quoting medical journals, she outlines the immediate and long-range medical and environmental effects of detonating a single 20-megaton bomb. As her audience sits mesmerized, Dr. Caldicott paints a frightening picture of the progression of events that would follow the explosion: instantaneous and irreparable destruction; uncontrollable firestorms; third degree burns from the sun caused by the weakening of the earth's protective ozone layer. She describes the planet, in the aftermath of a nuclear war, contaminated by radiation and rampant with disease — a world with few survivors.

Archival film footage of the bombing of Hiroshima and images of its survivors seven months after the attack heighten the urgency of Dr. Caldicott's plea to rid the world of nuclear weapons.

"Don't take no for an answer" is her repeated call for action. "It must be done" she insists. "You're going to have to change the priorities of your life, if you love this planet."

The message of the film is clear: disarmament cannot be postponed.

## Erratum

In the film, Dr. Caldicott stated: "They could easily make a hundred megaton bomb, they're awfully easy to make, and if you exploded that in space, increasing the diameter of destruction the higher up you go — you can wipe out six western states of the United States of America with one bomb."

Dr. Caldicott has advised the NFB that she mistakenly said "a hundred megaton bomb" when in fact she had intended to say a thousand.

## Excerpts from **Nuclear Madness: What You Can Do** by Dr. Helen Caldicott

Today, it is of the utmost urgency that we refocus our attention on the problems posed by nuclear technology, for we have entered and are rapidly passing through a new phase of the Atomic Age. Despite the fact that reactor technology is beset with hazardous shortcomings that threaten the health and well-being of the nations that employ it, nuclear power plants are spreading throughout the world. Moreover, by making "peaceful" nuclear technology available to any nation wealthy enough to buy a nuclear reactor, we are inviting other countries to join the international "nuclear club" militarily, as well as economically. . . . Because of this proliferation of nuclear weapons, the likelihood of nuclear war, the most ominous threat to public health imaginable, becomes greater every day. . . .

The argument is always raised that we need to build nuclear power plants and bombs to provide people with jobs. The truth is that the nuclear power and weapons industries are capital-intensive, labor-disintensive: that is, they provide relatively few jobs per dollar invested. The money needed to enrich uranium, build nuclear plants, decommission reactors, and store wastes for half a million years would employ many more people in industries building solar panels, growing food, feeding the world's starving children, building mass transit systems, and rebuilding cities. . . .

It is important that we keep in mind the fact that the nuclear industries are relatively young. Nuclear power has been in commercial production in the United States for only twenty-five years; arms production for thirty-five. Since the latency period of cancer is twelve to forty years and genetic mutations do not often manifest for generations, we have barely begun to experience the effects radiation can have upon us. Nuclear power plants and military facilities will continue to release radioactive materials into the environment, until public pressure

becomes great enough to bring such releases to a halt. Because the effects of these materials on us, our children, and our planet will be irreversible, we must take action now. What we have discovered so far should serve as ample warning that our future as a species is imperiled: we are entering a danger zone — an uncharted territory — from which we may never return. . . .

"But what can I do, as an individual?" is a refrain I hear whenever I draw people's attention to the problems threatening our survival. . . . My experience in Australia from 1971 to 1976 has taught me that democracy can still be made to work — that by exerting electoral pressure, an aroused citizenry can still move its government to the side of morality and common sense. In fact, the momentum for movement in this direction can only originate in the heart and mind of the individual citizen. . . .

We need to educate the politicians in America, by making sure they read about the biological effects of nuclear fission products and nuclear waste. . . .

It is of vital importance to educate the workers of this country, as well, because they are the grass-roots members of our democracy and the true power behind this system. . . .

We in the medical profession must begin to practice what I call "political medicine," something we are not trained to do. Political medicine opposes industrial practices which contaminate the environment with disease-causing agents. In this way it attempts to attack the "front end" of the cancer cycle and prevent the disorder from occurring — rather than trying to cure malignancies after they are diagnosed, when it is often too late. . . .

Each of us must accept total responsibility for the earth's survival.

## Dr. Helen Caldicott

**Dr. Helen Caldicott is one of the world's leading authorities on the medical implications of nuclear radiation. A native of Australia and a pediatrician by profession, she recently resigned her position at Harvard University medical school to concentrate full-time on campaigning against nuclear warfare. She is National President of Physicians for Social Responsibility, an American-based organization of some 10,000 physicians working to educate the public about the medical consequences of nuclear war. Author of *Nuclear Madness: What You Can Do*, Dr. Caldicott is also the founder of the Women's Party for Survival, a new American political party devoted to peace and to the prevention of nuclear war.**

# Facts About the Arms Race

## From World Military and Social Expenditures — 1981

by Ruth Leger Sivard

- The \$550 billion now spent in one year for arms and armies equals the entire income of 2 billion people living in the poorest countries. This is the bottom line in the world's military-social balance.

- On average, one dollar in seven of public revenue now goes to military purposes rather than to productive civilian use. In a world in which millions of people are starving and lack the barest shelter, military defense draws twice as much budget support as food-growing and five times as much as housing.

- Military expenditures of developed nations, including the centrally-planned, rose by \$320 billion from 1960 to 1980, their foreign economic assistance by \$23 billion.

- In the two countries, the U.S. and U.S.S.R., which account for the major portion of world's Research and Development spending, military and space research have received more government support than all civilian needs combined. As a result, productivity and growth in those countries have suffered.

- From a single research reactor in the U.S. in 1942, the nuclear industry has spread into 55 countries. If all nuclear power reactors now under construction are completed, the global total of research and power reactors will rise above 800 by 1989 — even if no new projects are started.

- In the normal course of operating, reactors produce fairly large quantities of a by-product, plutonium, from which nuclear weapons can be produced. . . . As the number of reactors increases on a global scale, their production of plutonium could reach hundreds of thousands of kilograms yearly. Only a few kilograms are necessary for a city-destroying bomb.

- The two city-destroying bombs of 1945 have developed into a global nightmare of 50,000 nuclear weapons, equivalent in explosive power to 1,000,000 Hiroshima bombs.

- The U.S. has over 9,000, the U.S.S.R. possibly 7,000 nuclear weapons of the strategic variety. These are weapons of unprecedented destructive force that can be delivered within one half-hour from one continent to another.

- Since 1945, 1,300 nuclear tests have been conducted throughout the world, in testing sites on every continent and in the Pacific and Atlantic Oceans.

## Questions for Discussion

- Has anyone here read Helen Caldicott's book **Nuclear Madness: What You Can Do**? Could anyone outline some of the suggestions she makes in her book regarding how the general public can effectively exert pressure on policy makers to reverse current trends in the nuclear arms race?
- Has anyone here ever been involved in any anti-nuclear activity? What was it? What do people here think the most effective action might be? On a local level? On a national level? For groups? For individuals? Do any of you know of any up-coming disarmament conferences, marches, etc.? Do some of you feel that all actions may be futile?
- Dr. Caldicott states that the U.S. military, as well as Harvard and M.I.T., predict a 50% chance of a nuclear war before 1985. Do you believe this could happen? Do you believe it is possible to have a **limited** nuclear war?
- How do you feel about assurances that military arsenals are an effective means of ensuring national security? What are some alternate ways of strengthening national security?
- Some people are convinced that military spending and war are good for the economy. Planned economic conversion means a redirection of the scientific and technical talent concentrated in military production. How can this be accomplished?
- What sort of priorities do you think the government should be giving to the following: the military; national social programs; economic development; third-world development; research into energy alternatives?

## Topics for Research

- The impact of militarism on the environment and on social, economic, and federal development programs.
- The relationship between nuclear power technology and the proliferation of nuclear weapons, including a consideration of Canada selling CANDU reactors to the third world.
- Canada's stand on and contribution to international arms control and disarmament.
- The United Nations special sessions on disarmament.
- The status of United States-Soviet Union arms limitation and reduction treaties.
- The immediate medical problems and long-term genetic effects of radiation.

## Suggestions for Action

- Read about the nuclear issue, subscribe to periodicals on related subjects, and urge your library to order books and periodicals on these subjects.
- Collect newspaper and magazine articles on the arms build-up. Then, bring them to people's attention — circulate them, talk about them and urge others to do the same.
- Pressure community organizations, educational institutions and government agencies to hold workshops and conferences on the subject. Suggest appropriate speakers, films, etc. to be included in their program.
- Don't forget the power of the media. Send letters or articles to local or national newspapers or magazines. Urge radio and TV networks to run programs on nuclear warfare, the arms race, and other related issues.
- Lobby elected representatives, educational and religious leaders, professional groups (engineers, scientists, doctors), unions, etc., and make your stand known.
- If you are not a member of a disarmament group, join one whose objectives coincide with yours. If there are no groups in your vicinity, start one.

## Resources — Audiovisual and Print

The following alphabetical lists provide a selection of audiovisual and printed resource materials that can be used to accompany and to follow-up on presentations of the film, **If You Love This Planet**. The lists are by no means all-inclusive, but they do provide a starting point for further study of nuclear disarmament and related issues. For information about other available resource materials, consult the organizations, film catalogues and publications listed in the following pages.

The names and addresses of all distributors referred to in this guide and a complete list of National Film Board offices may be found on the back cover. All NFB films may be borrowed — free of charge — in 16 mm format. They may be purchased in 16 mm or video-cassette format.

## Films/Videotapes

### **A is for Atom, B is for Bomb**

A film portrait of Edward Teller, best known to the public as "father of the H Bomb," a label that he abhors. The film traces Teller's life and work. The story is told by Teller himself and by his colleagues, those who support and those who oppose him.

58:00 col videocassette  
Dist: King Features Entertainment Inc.

### **Bead Game**

An award-winning animated film without words suggesting the evolution of man's competitive nature through the ages. In it, creatures both mythical and real — meticulously created by the animation of thousands of colored beads — devour, defeat and ultimately destroy one another in a fight for supremacy that begins with the simplest of living organisms and ironically concludes at the hands of man.

5:35 col 16 mm 106C 0077 107  
Dist: National Film Board of Canada

### **Booom**

This animated film by the world-famous animator Bretislav Pojar takes a humorous look at the history of aggression and the theory that "might makes right." It postulates a number of scenarios for planetary self-destruction, planned and accidental. A film without words.

10:00 col 16 mm  
Dist: Marlin Motion Pictures

### **Danger! Radioactive Waste**

A 1977 NBC film on the problems of radioactive waste resulting from the nuclear weapons industry and reactor disposal systems in the U.S. The people featured in this film present a powerful picture of themselves and their families as victims of these unresolved dilemmas.

50:00 col 16 mm  
Dist: Visual Education Centre

### **The Day After Trinity**

In July, 1945, the world's first atom bomb was detonated at the Trinity testing site in New Mexico, marking the culmination of 29 months of effort by some 6,000 scientists and technicians working in a secret laboratory in Los Alamos, New Mexico. This riveting documentary studies the life and work of physicist, J. Robert Oppenheimer — the man in charge. The film is the only film ever made on Oppenheimer; one of the few films on the making of the atom bomb; and probably the last film to include interviews with the major participants in the Los Alamos Project. (1981 Academy Award Nominee.)

90:00 col  
Dist: International Telefilm Enterprises

### **Eight Minutes to Midnight**

A documentary portrayal of Dr. Helen Caldicott's struggle to inform and arouse the public to the medical dangers of nuclear proliferation. It is also the story of her personal struggle with the demands of being a wife, mother, professional and activist.

60:00 col 16 mm  
Dist: Direct Cinema Ltd. Library

### **11 Steps to Survival**

This film, sponsored by Emergency Planning Canada, illustrates the effects of a nuclear bomb blast and describes how to equip a fallout shelter. Printed material to accompany the film is available from Emergency Planning Canada. The film can be used to discuss the effectiveness of such measures and the role of the Canadian government vis-à-vis the nuclear threat.

21:14 col 16 mm 106C 0173 550  
Dist: National Film Board of Canada

### **Hunger**

An animated film satire of self-indulgence in a hungry world. A man eats, at first sparingly, but his appetite grows to gluttony, greed, and gratification of every desire. The nightmare that finally haunts him is the one that hangs over our desperate world. A film without words.

11:22 col 16 mm 106C 0373 087  
Dist: National Film Board of Canada

### **Incident at Brown's Ferry**

In 1975, an accidental fire was started by a workman at the world's largest nuclear power plant, in Brown's Ferry, Alabama, resulting in \$150 million worth of damage and a 15-month plant closure. This film examines the controversial details of this incident, and the broader issue of reactor safety. What emerges is a highly complex picture of disagreements among the proponents and adversaries of nuclear reactors.

58:00 min. col 16 mm  
Dist: Marlin Motion Pictures

### **The Last Epidemic**

Can the United States survive a limited nuclear war? An eminent group of physicians, scientists and military experts do not think so. The urgent message communicated in this film by members of the American Medical Association and Physicians for Social Responsibility is that a reversal of the arms race is essential for survival, and they ask the audience for their participation in this effort.

36:00 col 16 mm  
Purchases: Resource Centre for Non-Violence  
48:00 col videocassette  
Dist: Canadian Coalition for Nuclear Responsibility (Vancouver)

### **NATO Today**

A brief history of the structure and purpose of the North Atlantic Treaty Alliance. The film explains NATO's system of collective security for its 16 member nations in the face of a growing threat from the Soviet Union and its Warsaw Pact allies. **NATO Today** also outlines the role of the Alliance in East/West relations and détente.

18:00 col 16 mm 106C 0179 143  
Dist: National Film Board of Canada

### **Neighbours**

A classic animated parable about two neighbors who cannot resolve peacefully a simple conflict over the possession of a flower. A Norman McLaren film without words.

8:10 col 16 mm 106C 0152 024  
Dist: National Film Board of Canada

### **No Act of God**

Sounding an alarm against the proliferation of nuclear reactors, **No Act of God** examines the potential for human error or mechanical failure at nuclear reactor sites, the problems of safely disposing of nuclear wastes, and the difficulty of ensuring that fissionable materials do not fall into the wrong hands. Alternate energy strategies are also explored in this film which features interviews with Amory Lovins, Theodore Taylor, and Nobel laureate, Dr. Hannes Alfvén.

27:23 col 16 mm 106C 0177 150  
Dist: National Film Board of Canada

### **Nuclear Countdown**

The nuclear arms race with its inherent threat of ultimate disaster is the subject of this United Nations film, designed for the layman. It traces the history and current status of the arms race, documents continuing international efforts to control the race and explains arms proliferation from the military perspective.

27:00 col 16 mm  
Dist: Marlin Motion Pictures

### **Paul Jacobs and The Nuclear Gang**

A powerful documentary about U.S. journalist Paul Jacobs who exposed government attempts to protect the nuclear power and weapons industry by suppressing information about the health hazards of low-level radiation. Investigative journalism at its best.

60:00 col 16 mm  
Dist: Kinetic Films

### **The Plutonium Connection**

It took only a small amount of plutonium, some easily obtained technical information, and five weeks time for a bright 20-year-old chemistry student to design a crude, but operative atomic bomb. His motivations were "academic"; but there seem to be no guarantees that similar bombs could not become the properties of madmen or terrorists.

Recognizing that the nuclear age is fraught with many kinds of danger, this film examines the problems of controlling plutonium inventories, and protecting national security as nuclear technology spreads worldwide.

59:00 col 16 mm  
Dist: Marlin Motion Pictures

### **Sad Song of Yellow Skin**

A film about the people of Saigon as seen through the experiences of three young American journalists who, in 1970, explored, in their own way, the consequences of war and of the American presence. It is not a film about the Vietnam war, or the rights or wrongs of it, but about people who lived on the fringe of battle.

58:05 col 16 mm 106C 0170 017  
Dist: National Film Board of Canada

### **The Streets of Saigon**

An abridged and revised version of **Sad Song of Yellow Skin**, this film for younger audiences focuses on the street children of war-torn Saigon, and on the American volunteers who tried to help them.

23:19 col 16 mm 106C 0173 009  
Dist: National Film Board of Canada

### **Tools of Change: Introduction to Appropriate Technology**

Using examples in Asia, Africa, and Latin America, Dr. Amulya Reddy of the Institute of Technology in India explains the social aspects of technology necessary for appropriate third-world development. A 1979 German-made film.

30:00 col 16 mm  
Dist: DEC Films

### **Top Priority**

A parable in vivid, luminous animation showing the glaring discrepancy between the priorities of a drought-stricken family and those of its government. In this tale, tanks and missiles win out over life-giving water pumps.

9:09 col 16 mm 106C 0181 065  
Dist: National Film Board of Canada

### **Toys**

An animated film in which war toys come to life in a store window before wide-eyed children. The film makes the point that, while war toys do not necessarily make warriors, they give false glamour to a deadly pursuit. A film without words.

7:46 col 16 mm 106C 0166 027  
Dist: National Film Board of Canada

### **23 Skidoo**

This film shows a North American city completely devoid of human life. The effect is bizarre and disturbing. Only at the end of the film do we learn what has happened.

8:15 b&w 16 mm 106B 0164 088  
Dist: National Film Board of Canada

### **The War Game**

Made for the BBC in 1965 and subsequently banned for many years, this now-famous docu-drama was the first to confront the public with a vivid picture of the horrors of nuclear war. In the filmmaker's opinion, the BBC held back the film because it feared that the truth about the effects of nuclear weapons would cause widespread panic and a massive public outcry to ban the bomb. Film users should be warned that this is a shocking and potentially very disturbing film for some viewers, and that some sort of follow-up should therefore be planned.

66:00 b&w 16 mm  
Dist: Visual Education Centre

### **War without Winners**

A film in which U.S. and Soviet citizens express their thoughts, fears, and hopes about their future in the nuclear age. It focuses on the need for the American Congress to ratify Salt II. Despite its U.S. orientation, this fast-paced film makes a forceful plea to all nations for an immediate reduction of nuclear weapons and for disarmament. Many of those interviewed are former U.S. presidential, military, and scientific advisors who now realize the folly of the arms race and have committed their lives to its reversal.

27:00 col 16 mm  
Dist: IDERA Films, Project Ploughshares, or Visual Education Centre (for purchase)

### **Water: The Hazardous Necessity**

Every day 25,000 people in developing countries die from using unsafe water. For poor countries, providing clean water is seldom a high national priority. This CIDA film documents several of the water-borne tropical diseases plaguing Africa, and examines the economic and social conditions that allow them to flourish.

26:27 col 16 mm 106C 0177 662  
Dist: National Film Board of Canada

### **We Are the Guinea Pigs**

A powerful anti-nuclear documentary, this feature-length film shot on location in Harrisburg, Salem, Washington, New York, and Pittsburgh shows the violent effects of the catastrophe at the Three Mile Island nuclear reactor. It contains interviews with farmers, working and middle-class parents of Harrisburg, scientists and experts, local union leadership, and public officials. By interweaving the views and experiences of all of these people, the film makes a strong statement about the urgent necessity of shutting down nuclear reactors and halting the arms race.

90:00 col 16 mm  
Dist: IDERA Films

### **We Have Always Done It This Way, Haven't We?**

This film on planned economic conversion documents the innovative efforts of a Lucas Aerospace shop steward to link workers' skills and their machinery to concrete projects beneficial to society; e.g., the production of kidney dialysis machines, heat pumps, and solar energy components. The film draws together several related themes: ecological and consumer concerns, labor's demand for job security and full employment, the quality of work life, and the need to convert from war-oriented production to peaceful industrial applications.

45:00 col 16 mm  
Dist: IDERA Films

### **Who's in Charge Here**

"The U.S. is currently squandering economic and human resources on defence," asserts this 1980 film produced by the Institute for World Order. Through the words of employees in arms production plants and the civilian sector, the film emphasizes that gradual cutbacks on defense spending and the re-orientation of these resources can only benefit the American people.

15:00 col 16 mm  
Dist: IDERA Films

## Sound Slide Sets

**Note:** The addresses of slide set distributors may be found on page 17.

### Ground Zero

Bangor, Washington, one of the largest nuclear submarine bases in the world, is located 60 miles south of Victoria, B.C. and thus places most of B.C.'s population within one of North America's most vulnerable nuclear attack zones. This slideshow contains an overview of the arms race, an explanation of first-strike policy, and the role of the new Trident nuclear submarine in the nuclear triad.

35:00 color and sound 80 slides  
Available for rental from Project Ploughshares (Vancouver).

### John, Mary, MIRV and MARV

A 25-minute slideshow challenging the concept of "being number one" in the arms race and showing the futility of this notion.

25:00 color and sound  
Available for rental from Project Ploughshares (Waterloo).

### The Last Slide Show

A 25-minute slideshow that serves as a useful introduction to the subject of the nuclear arms race. It describes the development of ever more destructive weapons systems and suggests alternate directions for the maintenance of peace.

25:00 color and sound  
Available for rental from Project Ploughshares (Ottawa, Waterloo); to purchase or rent, contact the Scarboro Foreign Mission.

### Making a Killing: The Arms Industry in Canada

A slideshow presenting a history of the development of Canada's arms industry and our growing dependence on the weaponry and defence policies of the U.S. It describes the Canada/U.S. defence production sharing arrangements and their political and economic consequences for Canada.

30:00 color and sound  
Available for rental from all Project Ploughshare offices.

### Militarization: An Obstacle to Development

This slide tape show produced by the Canadian Catholic Organization for Development and Peace analyzes the relationship between the militarization and the underdevelopment of third-world countries. It illustrates how poverty, repression, and militarization form parts of a vicious cycle in which many third-world countries find themselves. The slideshow, available in both French and English versions, concludes by suggesting how the public can help solve the problems caused by militarism.

22:00 color and sound  
To borrow free of charge contact: Canadian Catholic Organization for Development and Peace.

## Books

### The Final Epidemic

Edited by Ruth Adams; The Bulletin of the Atomic Scientists, Chicago, 1981.

A synopsis of 19 papers delivered at a 1980 conference on the medical consequences of nuclear war.

Available from: Physicians for Social Responsibility, P.O. Box 144, Watertown, Mass., 02172, U.S.A., (617) 924-3468. Softcover: \$4.95

### Hiroshima and Nagasaki: The Physical, Medical and Social Effects of the Atomic Bombings

Edited by the Committee for the Compilation of Materials on Damage Caused by the Atomic Bombs in Hiroshima and Nagasaki; Basic Books Inc., Publishers, New York, 1981.

Perhaps the most complete scientific account of the bombings, this detailed book is a summary and analysis of the findings of Japanese authorities on the immediate damage and long-term effects of the bombings. Extensive bibliography. 700 pages.

Available in Canada from: Fitzhenry and Whiteside, 150 Lesmill Road, Don Mills, Ontario M3B 2T5, (416) 449-0030. Hardcover: \$50.95.

### Making a Killing: Canada's Arms Industry

Ernie Regehr; McClelland and Stewart, 1975.

A history of the arms industry in Canada and an examination of the consequences of the Canadian/U.S. defense sharing arrangements. The author lists Canadian firms involved in arms production and warfare research and points out how such firms benefit from government funding. 135 pages.

Available in Canada from McClelland and Stewart, 25 Hollinger Road, Toronto, Ontario M4B 3G2. (416) 751-4520. Paperback: \$5.95.

### Nuclear Madness: What You Can Do

Dr. Helen Caldicott; Autumn Press, 1978

An account of Dr. Caldicott's involvement in raising public awareness of the dangers of nuclear warfare, the book describes how nuclear reactors and bombs are built and contains facts

# Periodicals

on the arms race and the medical effects of radiation. The author urges readers to respond to the nuclear threat and suggests how they can do so. 119 pages.

Available in Canada from Random House, 5390 Ambler Drive, Mississauga, Ontario L4W 1Y7. (416) 624-0672. Hardcover: \$10.50; Paperback: \$4.95.

## Peace in Search of Makers

Jane Rockman, editor; Judson Press, Pennsylvania, 1981.

What happens when a congregation gets involved in working for peace? This collection of short, punchy papers, the result of a special convocation held at Riverside Church, in New York, in 1978, includes such topics as: examinations of the arms race, unemployment and the arms race, détente. 158 pages.

Available in Canada from: CANEC Book Room, 85 St. Clair Avenue East, Toronto, Ontario, M4T 1M8. (416) 925-6597. Softcover: \$9.95.

## Radiation and Human Health

John W. Gofman, M.D., Ph.D.; Sierra Book Club, 1981.

"Whether you are a concerned patient, a worried parent, a conservative, professional, or an environmentalist, John Gofman's fascinating, authoritative, and brilliant book will de-mystify the subject of low-level radiation." — André Bruwer, M.D., Diplomat of the American Board of Radiologists. 896 pages.

Available in Canada from: John Wiley and Sons, Inc., 22 Worcester Rd., Rexdale, Ontario M9W 1L1. (416) 675-3580. Hardcover: \$39.95.

## Unforgettable Fire

Japan Broadcasting Corporation (NHK), editor; Pantheon Books, New York, 1977.

In emotional words and vivid drawings, survivors of the Hiroshima bombing recall their memories of August 6, 1945.

Available in Canada from: Random House, 5390 Ambler Drive, Mississauga, Ontario, L4W 1Y7. (416) 624-0672. Softcover: \$7.95

## Connexions

Published five times a year, each issue focuses on a single subject related to social development. This Canadian-oriented publication is an annotated bibliography of new print and audiovisual material available. Of special interest is Vol. V, No. 5, on militarism.

Available from: **Connexions**, 427 Bloor St. West, Toronto, Ontario M5S 1X7, (416) 960-3903. One-year subscription: \$12.00 for institutions; \$25.00 for individuals.

**Connexions** Vol. V, No. 5 only is available from: Christian Movement for Peace, 427 Bloor St. W., Toronto, Ontario M5S 1X7, (416) 921-2360. \$2.00 for Vol. V, No. 5.

## The Disarmament Bulletin

An information bulletin on the disarmament activities of the Canadian government. Published by: Arms Control and Disarmament Division, Department of External Affairs.

Available from: Domestic Information Program Division, Department of External Affairs, Lester B. Pearson Bldg., 125 Sussex Drive, Ottawa, Ontario K1A 0G2, (613) 593-7064. Free of charge.

## International Perspectives

Formerly a Department of External Affairs publication, this Canadian journal on world affairs is now published six times a year by a private organization. The periodical contains articles by academics, journalists and diplomats on Canadian foreign affairs and international affairs of interest to Canada.

Available from: **International Perspectives**, P.O. Box 949, Station B, Ottawa, Ontario K1P 5P9, (613) 238-2628. \$2.75 for single issues, including back issues. \$15.00 for a one-year subscription.

## Issue

A critical assessment of social concerns, designed to promote discussion and action. It is published by the Division of Mission in Canada of the United Church of Canada, but states United Church policy only where explicitly noted. Of special interest is Issue 24 on nuclear disarmament.

Available from: Research and Resource in Social Issues, Division of Mission in Canada, 85 St. Clair Ave. East, Toronto, Ontario M4T 1M8, (416) 925-5931 ext. 220. 30¢ a copy.

## The Ploughshares Monitor

Published bi-monthly by "Project Ploughshares: a Working Group on Canadian Military Policy," sponsored by the Canadian Council of Churches and other church and civic organizations. The periodical deals with Canada's role in the arms race and the link between disarmament and development. It also reports on initiatives taken by Canadian NGOs and by the United Nations to achieve disarmament.

Available from: Project Ploughshares, c/o The Institute of Peace and Conflict Studies, Conrad Grebel College, University of Waterloo, Waterloo, Ontario N2L 3G6, (519) 885-0220. \$10.00 for a one-year subscription.

# Articles, Reports and Booklets

## Articles distributed by Physicians for Social Responsibility

PSR will send you their Educational Materials List, which consists of articles and films available through their organization.

Available from: Physicians for Social Responsibility, P.O. Box 144, Watertown, Mass., 02172, U.S.A., (617) 924-3468.

## Canada's Interest in Disarmament

An article in the March/April 1980 issue of **International Perspectives**.

Available from: **International Perspectives** (see **Periodicals** for details).

## Disarmament: The Problem of Organizing the World Community

A speech to the United Nations General Assembly Special Session on Disarmament by Prime Minister Pierre Elliott Trudeau on May 26, 1978. Speech 78/7.

Available from: Domestic Information Programs Division, Department of External Affairs, Lester B. Pearson Bldg., 125 Sussex Drive, Ottawa, Ontario K1A 0G2, (613) 593-7064. Free of charge.

## Emergency Planning Canada Publications

This government organization distributes a number of publications relating to civil defense preparedness in the event of a nuclear attack. These include "11 Steps to Survival" (to accompany the film of the same name); "Your Basement Fallout Shelter"; fact sheets on water purification and storage and other aspects of civil defense programs.

Available from: Emergency Planning Canada, Public Information Section, Gillen Building, 141 Laurier St. W., 2nd Floor, Ottawa, Ontario K1A 0W6, (613) 932-3322/9988.

## Final Document of the 1978 Special Session of the Assembly on Disarmament

Available from: United Nations Association in Canada, 63 Sparks St., Suite 808, Ottawa, Ontario K1P 5A6, (613) 232-5751/6268. Free of charge.

## How You Can Get Involved in Canada

This comprehensive 30-page booklet describes CUSO's activities in Canada and lists groups across the country active in third-world development, human rights, disarmament, agriculture, education, and other issues of concern. Contains a list of media resources as well.

Available from: CUSO Development Education Team, 151 Slater St., Ottawa Ontario K1P 5H5, (613) 563-3658/3655.

## Increasing Public Awareness of Disarmament Issues

A statement by Secretary of State for External Affairs Mark MacGuigan on October 22, 1981, issued in conjunction with International Disarmament Week. Statement No. 81/26.

Available from: Domestic Information Program Division, Department of External Affairs (see **Periodicals** for address).

## ISSUE 24: Not With Our Lives You Don't

The December 1980 publication of **Issue** containing information for Canadians on nuclear disarmament. (See **Periodicals** section for more information.)

Available from: United Church of Canada, Research and Resource in Social Issues, 85 St. Clair Ave. E., Toronto, Ontario M4T 1M8, (416) 925-5931. 30¢ for single issue. Bulk orders available.

## Reflections: The Fate of the Earth by Jonathan Schell, **The New Yorker** magazine

A stunning, in-depth and lengthy analysis of the whole nuclear issue, its history, development and prognosis. The author recognizes in his readership a "particular failure of response, in which hundreds of millions of people acknowledge the presence of an immediate unrelenting threat to their existence, and to the existence of the world they live in, but do nothing about it." He thus minces no words in describing, in both human and technical terms, the full implications of nuclear warfare.

The articles appear in three issues. Each is approximately 45 pages in length. Part I — A Republic of Insects and Grass, February 1, 1982.

Part II — The Second Death, February 8, 1982.

Part III — The Choice, February 15, 1982.

Back copies of these issues can be obtained for \$2.50 by writing **The New Yorker**, 25 West 43rd Street, New York, N.Y. 10030 (Attn: Back issues). The three articles will be published in June 1982 as a book entitled **Fate of the Earth**. Distributed in Canada by Random House. \$17.95.

### **Reports of the Third and Fourth Ploughshares Summer Workshop**

The reports comprise separate publications entitled "Towards an alternative defense policy for Canada"; "Arms vs development: Findings from current United Nations studies on the links between disarmament and development"; "Canada, a nuclear weapons-free zone."

Available from: Project Ploughshares, 321 Chapel St., Ottawa, Ontario K1N 7Z2, (613) 236-4547.

### **U.S., U.S.S.R. — Like Lemmings to the Sea**

George F. Keenan's Einstein Peace Prize address published in Vol. IV, No. 3 (June 1981) of **Disarmament Times**. In his address, the Pulitzer Prize-winning historian proposes that the U.S. and the Soviet Union immediately reduce their nuclear arsenals by 50 percent.

Available from: **Disarmament Times**, Room 7B, 777 United Nations Plaza, New York, N.Y. 10017 U.S.A., (212) 697-2708.

Bulk orders for classroom use: \$1.00 (U.S.) for 20 copies.

### **Under the Gun: Militarism and the Environment**

In this article author Ernie Regehr gives an overview of the effects of militarism on the physical and social environment. Among other topics, the environmental consequences of war, and the social and economic consequences of military spending are explored. The article appears in Vol. VII, No. 3 (summer 1978) of **Alternatives**.

Available from: **Alternatives**, Trent University, Peterborough, Ontario, K9J 7B8, (705) 748-1471. \$1.50.

### **United Nations Special Session on Disarmament**

Appraisals by consultants to the Canadian delegation published in the September/October 1978 issue of **International Perspectives**.

Available from: **International Perspectives** (see **Periodicals** for details).

### **Why Canada Should Stop Selling Its Reactors to Third World Nations**

The author, Dr. David Rogers, an OXFAM associate, explains how massive high technology projects such as nuclear power plants are inappropriate for the needs of the majority of people in developing countries and adversely affect the well-being of these people. Originally published in **Science Forum** Vol. X, No. 5 (October 1977).

Available from: Publications Department, National Research Council of Canada, Ottawa, Ontario K1A 0R6. Free of charge.

### **World Military and Social Expenditures**

Ruth Leger Sivard, **World Priorities**, published yearly.

Compiled by a former chief of the economic division of the U.S. Arms Control and Disarmament Agency (ACDA), this annual report compares military spending to spending for social needs throughout the world. It contains concise statistical data on subjects such as the arms trade, military training, income distribution and worldwide spending on health and education.

Available from: World Priorities Inc., Box 1003, Leesburg, Virginia 22075, U.S.A., (703) 777-6444 or (202) 337-4218 \$4.00 (U.S.) for the 1981 issue. Special rates for bulk orders for students. Back issues also available.

### **World Military Expenditures and Arms Transfers**

Published each year by the U.S. Arms Control and Disarmament Agency (ACDA), the report constitutes the official American government analysis of global military expenditures.

Available from: ACDA, Room 5840, 320 21st St. N.W., Washington, DC 20451, U.S.A., (202) 632-8715. Free of charge.

# Teaching Aids/ Study Programs

## **A Matter of Faith: A Study Guide for Churches on the Nuclear Arms Race**

A handbook comprising a series of articles and divided into three sections.

- 1) The Historical Situation
- 2) Responses of Faith
- 3) Faith at Work

Available from: **Sojourners Magazine**, 1309 L St., N.W., Washington, DC 20005, (202) 737-2780. \$3.50. (U.S.)

## **An Approach to Peace Education: A Teaching Unit on Disarmament, Development and the Child**

UNICEF Development Education school series No. 6 for grades 5-12 includes teachers' notes, suggestions for classroom activities, background papers on conflict studies and the arms race and a wall chart.

Available from: UNICEF branches in all provincial capitals. Consult your phone book or contact UNICEF Canada, 443 Mount Pleasant Rd, Toronto, Ontario M4S 2L8, (416) 482-4444. \$8.00.

## **Curriculum Resource Kits for Development for Secondary Schools**

A four-part series: "Science and Survival," "Resource Development," "World Development," "Through the People's Eyes." Sold as a unit for \$48.00 plus postage, or individually for \$12.00 each, plus postage.

Prepared by, and available from: International Centre, Queen's University, Kingston, Ontario K7L 3N6, (613) 547-2807.

## **Final Report of the World Congress on Disarmament Education in June 1980**

Information on worldwide disarmament education efforts and study programs. Document SS/MD/35.

Available from: Canadian Commission for UNESCO, 255 Albert St., Ottawa, Ontario K1P 5V8, (613) 237-3408. Free of charge but distribution limited due to volume of report.

## **Militarism and the World Military Order**

A 69-page study guide for churches published as part of the World Council of Churches Program for Disarmament and Against Militarism and the Arms Race. Author Ernie Regehr examines the many aspects of militarism. Includes questions for discussion.

Available from: All branches of Project Ploughshares (see **Canadian Contacts**).

## **Peace and Conflict Studies**

An interdisciplinary program at the University of Waterloo offering the following courses: The role of conflict in human relations; The sources of aggression, violence and war; Strategies of conflict resolution; Arms races, arms control and disarmament; Bargaining and mediation techniques; Ethical issues in conflict and violence; Non-violence as a strategy of social change.

For information contact: Conrad Grebel College, University of Waterloo, Waterloo, Ontario, (519) 885-0220 (Ext. 46).

## **The U.N. Special Session and Beyond** by Homer A. Jack

A workbook for senior high school and college students dealing with the U.N. 1978 special session on disarmament.

Available from: World Conference on Religion and Peace, 777 United Nations Plaza, New York, N.Y. 10017 U.S.A., (212) 687-2163. \$4.95 (U.S.).

## **U.N.A. Disarmament Kit**

United Nations Association in Canada has produced a kit recommended for use in Canadian high schools and universities. It contains the booklet "A Time to Disarm" and a publication entitled "Canada: The Arms Race and Disarmament" consisting of the following sections: The state of world armaments; International efforts in disarmament and arms control; Canada and disarmament; Political will — the role of the Canadian public.

Available from: United Nations Association in Canada, 63 Sparks St., Suite 808, Ottawa, Ontario K1P 5A6, (613) 232-5751/6268. \$4.00. A catalogue of UNA publications is available free of charge.

# Audiovisual Catalogues

The following list provides a selection of audiovisual catalogues that include information on additional films, video-cassettes and slide sets dealing with issues such as nuclear disarmament, development, and the third world.

## In Canada:

### BBC Film and Videocassette Catalogue

Contains a wide selection of films on war, peace, science and development.

Catalogue distributed free of charge by BBC Film Sales, Manulife Centre, Suite 1220, 55 Bloor Street West, Toronto, Ontario M4W 1A5, (416) 925-3891.

### DEC Films Catalogue

Groups together A-V resources documenting social and political struggles throughout the world, available through the Development Education Centre.

Catalogue price: \$2.00. Available from DEC Films, 427 Bloor Street W., Toronto, Ontario M5S 1X7, (416) 964-6901.

### IDERA Films Catalogue

Groups together films on international and Canadian development issues, available from the International Development Education Resources Centre.

Catalogue distributed free of charge by IDERA Films, 2524 Cypress Street, Vancouver, B.C. V6J 3N2, (604) 738-8815.

### Marlin Motion Pictures 16 mm Catalogue

Contains a wide selection of films including several on "Nuclear Energy and the Atom". A special listing of United Nations films is included.

Catalogue distributed free of charge by Marlin Motion Pictures, 211 Watline Ave., Mississauga, Ontario L4Z 1P3, (416) 272-4100 or Suite 1212, 666 St. James Street, Winnipeg, Manitoba R3G 3J6, (204) 774-0632.

### North-South Dialogue Catalogue

A specialized catalogue published by the NFB and CIDA, drawing together films distributed by the National Film Board on the social, economic and cultural aspects of North-South relations. Topics include: "Disarmament and Development," "The Sharing of Technology" and "Energy."

Catalogue available free of charge from all National Film Board offices in Canada. (See the back cover for addresses.)

### Scarboro Foreign Mission Society Audiovisual List

A-V list available free of charge from Scarboro Foreign Mission Society, 2685 Kingston Road, Scarborough, Ontario M1M 1M4, (416) 261-7135.

### From the U.S.:

The following is a selection of A-V catalogues and reviews produced in the U.S. describing resources available through various American distributors. Though it is more difficult and costly to bring films across the border than to obtain them directly from Canadian sources, it can be done. Consult with the individual distributors regarding shipping and customs regulations, and allow plenty of time for delivery.

### Green Mountain Post Films Catalogue

Includes films on nuclear issues and the environment, many produced by Green Mountain Post Films, itself.

Catalogue distributed free of charge by Green Mountain Post Films, P.O. Box 229, Turners Falls, Massachusetts, U.S.A. 01376, (413) 863-4754.

### Mobilization for Survival Audiovisual Guide

A compilation of films available from various U.S. distributors on subjects such as: nuclear power and weapons links, alternative energy and conservation, the struggle against militarism and disarmament.

Price: \$3.00 (U.S.). Available from Mobilization for Survival, 48 St. Marks Place, New York, N.Y., U.S.A. 10003, (212) 533-0008.

### War Peace Film Guide

Edited by John Dowling, professor of Physics and editor of the **Bulletin of the Atomic Scientists**. Reviews and provides study guides for some of the latest films on war, the arms race and international development. 188 pages.

Price: \$5.00 (U.S.). Published by and available from: World Without War Publications, 67 East Madison Street, Suite 1417, Chicago, Illinois, U.S.A. 60603, (312) 236-7459.
